Dear Colleagues!

Every year, the Institute welcomes participants of the Scientific and Practical Conference to share their experiences, discuss current issues in healthcare, and to establish cooperation for further research and development in the field.

We are pleased to invite you to participate in an International Scientific and Practical Conference, which aims to discuss and identify the most important issues in healthcare, taking into account the international and domestic experiences, analyze existing medical practices, and explore the prospects for implementing preventive approaches.

The Conference Program includes presentations by the leading international and domestic experts, scientific and educational institutions dealing with healthcare issues.

We hope that this year's Conference will be a good opportunity for fruitful cooperation, friendly meetings, and professional growth.

We wish the Conference participants creative Inspiration, new ideas and scientific achievements, fruitful cooperation with colleagues for the exchange of information and the implementation of innovative solutions in scientific and practical activities.

Sincerely

Organizing Committee
